SECTION 1: INTRODUCTION

1. BACKGROUND

- 1.1 Cape Agulhas Municipality subscribes to the principles of good corporate governance, which requires that business be conducted in an honest, ethical and transparent fashion.
- 1.2 This plan is premised on the Municipality's core ethical values, driving the business of the Municipality, the development of its systems, policies and procedures, interactions with ratepayers, the public and other stakeholders and decision-making by individual managers representing the Municipality. This means that in practice all departments and other business units of the Municipality and external stakeholders must be guided by the plan as the point of reference for their conduct in relation to the Municipality.
- 1.3 In addition to promoting ethical conduct within the Municipality, the Plan is also intended to assist in preventing, detecting, investigating and sanctioning fraud and corruption.
- 1.4 This dynamic document details the steps which have been and will continually be taken by the Municipality to promote ethical conduct and address fraud and corruption.
- 1.5 This dynamic document details the steps which have been and will continually be taken by the Municipality to promote ethical conduct and address fraud and corruption.

2. PURPOSE OF THE FRAUD PREVENTION PLAN

- 2.1 The purpose of the fraud prevention plan is summarised as follows:
 - Encouraging a culture within the Municipality where all employees, the public and other stakeholders continuously behave ethically in their dealings with, or on behalf of, the Municipality;
 - Improving the application of systems, policies, procedures and regulations;
 - Encouraging all employees and other stakeholders to strive towards the prevention and detection of fraud and corruption impacting or potentially impacting on the Municipality.

3. TERMS AND ABBREVIATIONS

Throughout this document, unless otherwise stated, the words and abbreviations below have the following meanings and cognate expressions shall bear corresponding meanings:

- 3.1 **“Accounting Officer”** means the Municipal Manager, who is appointed as the head of administration and the accounting officer in terms of Section 55 of the Local Government: Municipal Systems Act 2000 (Act no. 32 of 2000)
- 3.2 **“Constitution”** refers to the Constitution of the Republic of South Africa (1996)
- 3.3 **“COGTA”** means the National Department of Co-operative Governance and Traditional Affairs

3.4 **“Fraud and Corruption”** includes, but is not limited to the following legal definitions:

3.4.1 **Fraud:** means the unlawful and intentional making of a misrepresentation resulting in actual or potential prejudice to another;

3.4.2 **Corruption:** means "Any person who, directly or indirectly accepts or agrees or offers to accept any gratification from any other person, whether for the benefit of himself or herself or for the benefit of another person; or gives or agrees or offers to give to any other person any gratification, whether for the benefit of that other person or for the benefit of another person is guilty of the offence of corruption" (National Treasury)

3.4.3 **Theft:** means the unlawful and intentional misappropriation of another's property or property which is in his/her lawful possession, with the intention to deprive the owner of its rights permanently;

3.5 **Offences in respect of corrupt activities** as defined in the Prevention and Combating of Corrupt Activities Act, 2004:

3.5.1 The general offence of corruption which could be summarised as directly or indirectly accepting or agreeing to accept any gratification from another person; giving or agreeing to give any other person any gratification in order to influence that person directly or indirectly to exercise his powers, duties or legal obligations in a manner which is/amounts to:

- Illegal, dishonest, unauthorised, incomplete, or biased;
- Misuse or selling of information or material acquired;
- Abuse of position of authority;
- Breach of trust;
- Violation of a legal duty or set of rules;
- Designed to achieve an unjustified result; and
- Any other unauthorised or improper inducement to do or not to do anything

3.5.2 Corrupt activities in relation to:

- Public officials;
- Foreign public officials;
- Agents;
- Judicial officers;
- Members of the prosecuting authority;
- Unauthorised gratification received or offered by or to a party with an employment relationship;
- Witnesses and evidential material during certain proceedings;
- Contracts;
- Procuring and withdrawal of tenders;
- Auctions;
- Sporting events; and
- Gambling games or games of chance

3.5.3 Conflicts of interests and other unacceptable conduct, for example:

- Acquisition of private interests in contract, agreement in or investment in public body;
- Unacceptable conduct relating to witnesses; and
- Intentional interference with, hindering or obstruction of investigation of offence;

3.5.4 Other offences relating to corrupt activities, namely:

- Accessory to or after an offence;
- Attempt, conspiracy and inducing another person to commit offence; and
- Failure to report corrupt transactions;

3.6 **Irregularities relating to the following:**

3.6.1 Systems issues: where a process/system exists which is prone to abuse by employees, the public or other stakeholders, for example:

3.6.1.1 Human Resources – Employment Practices: (Refer to all HR policies of CAM)

- Inadequate vetting of employees;

3.6.1.2 Procurement: (Refer to all financial policies governing all procurement processes of CAM)

- Non-compliance to tender procedures;
- Procurement fraud, for example. Collusion between employees and suppliers;
- Fraudulent information submitted by suppliers when tendering for work;

3.6.1.3 Financial Systems and Control: (Refer to all financial policies of CAM)

- Theft of blank cheques;
- Deliberate non-compliance to policies and procedures;
- Abuse of the system of overtime;
- Abuse of the system of travel claims;
- Fraudulent payment certificates submitted for payment;
- Non-compliance to delegated authority limits;

3.6.1.4 Financial issues: i.e. where individuals or entities have fraudulently obtained money from the municipality, for example:

3.6.1.4.1 Human Resources – Employment Practices: (Refer to all HR policies of CAM)

- Ghost employees;
- Irregular appointment of staff for undue benefits

3.6.1.4.2 Procurement: (Refer to all financial policies governing procurement processes of CAM)

- Suppliers invoicing for work not done;
- Contractors “fronting”.

3.6.1.4.3 Financial Systems and Control: (Refer to all financial policies of CAM)

- Theft, for example petty cash amongst others;
- Fraudulent cashing of cheques;
- Fraudulent travel claims by employees;

3.6.1.5 Equipment and resource issues: i.e. where the municipality's equipment is utilised for personal benefit or stolen, for example:

3.6.1.5.1 Financial Systems and Control: (Refer to all financial/asset policies of CAM)

- Theft of assets;
- Abuse of assets;
- Deliberate destruction of property; and
- Use of the Municipality resources and equipment for private gain.

3.6.1.6 Other issues: i.e. activities undertaken by employees of the municipality, which may be against policies or fall below established ethical standards, for example:

3.6.1.6.1 Conflict of interest;

3.6.1.6.2 Favoritism; and

3.6.1.6.3 Non-disclosure of private work

3.7. **“Municipality”** refers to the Cape Agulhas Municipality.

3.8. **“MFMA”** refers to the Local Government: Municipal Finance Management Act, No 56 of 2003.

3.9. **“MSA”** refers to the Local Government: Municipal Systems Act, No 32 of 2000.

3.10. **“Plan”** refers to the Anti-Corruption and Fraud Prevention Plan of Cape Agulhas Municipality

3.11 **“SALGA”** refers to the South African Local Government Association

3.12 **“SARS”** refers to the South African Revenue Services

3.14 **“Structures Act”** refers to the Local Government: Municipal Structures Act, No 17 of 1998

What should an employee do if he/she suspects fraud and corruption?

- 4.1 It is the responsibility of all employees to immediately report all allegations or incidents of fraud and corruption as indicated in the anti-corruption and fraud prevention policy.
- 4.2 All managers are responsible for the detection, prevention of fraud and corruption and must report all incidents and allegations of fraud and corruption to the Municipal Manager as per the anti-corruption and fraud prevention policy.
- 4.3 Should employees wish to report allegations of fraud and corruption anonymously, they can contact any member of management, the Municipal Manager, the Chairperson of the FARMCO, Mayor and/or the National Corruption and Fraud Hotline on 0800 701 701.

What should a member of the public or providers of goods and/or services do if they suspect fraud and corruption?

- 4.4 The Municipality encourages members of the public or providers of goods and/or services who suspect fraud and corruption to contact any member of management, the Municipal Manager and/or the Mayor.

How will allegations of fraud and corruption be dealt with?

- 4.5 The action taken will depend on the nature of the matter. The matters raised will be screened and evaluated and may subsequently:
- Be investigated internally; or
 - Be referred to another institution better equipped to handle the matter.
- 4.6 Any fraud and corruption committed by an employee or any other person will be pursued by thorough investigation and to the full extent of the law, including (where appropriate) consideration of:
- a) In case of employees, taking disciplinary action within a reasonable period of time after the incident;
 - b) Instituting civil action to recover losses;
 - c) Initiating criminal prosecution by reporting the matter to the SAPS or any other relevant law enforcement agency; and
 - d) Any other appropriate and legal remedy available.

Recovery of Losses

- 4.7 Managers are required to ensure that losses or damages suffered by the Municipality as a result of all reported acts committed or omitted by an employee, ratepayer, supplier or any other person are recovered from such an employee, ratepayer, supplier or other person if he or she is found to be liable for such losses.

Feedback to reporters of fraud

- 4.8 The Municipal Manager will, upon receiving a report of fraud from an external person, write to the person making the report:
- Acknowledging that the concern has been received;
 - Indication how he proposes to deal with the matter and whether any initial enquiries have been made;
 - Giving an estimate of how long it will take to provide a final response; and
 - Informing them whether any further investigations will take place, and if not, why not.

Confidentiality

- 4.9 All information relating to fraud and corruption that is received and investigated will be treated confidentially. The progression of investigations will be handled in a confidential manner and will not be disclosed or discussed with any person(s) other than those who have a legitimate right to such information. This is important in order to avoid harming the reputations of suspected persons who are subsequently found not guilty of wrongful conduct.

Media

- 4.10 No person is authorised to supply any information with regard to allegations or incidents of fraud and corruption to the media (printed media, broadcasted media social media or any other form of media) without the express permission of the Municipal Manager.

Protection of Whistle Blowers

- 4.11 A person who reports suspected fraud and/or corruption may remain anonymous should he/she so desire, but the Municipality shall encourage staff and the public to put their names to allegations. Concerns expressed anonymously are difficult to investigate; nevertheless, they will be followed up at the discretion of the Municipality. This discretion will be applied by taking into account the following:

- The seriousness of the issue raised;
- The credibility of the concern; and
- The likelihood of confirming the allegation.

- 4.12 No person will suffer any penalty or retribution for good faith reporting of any suspected or actual incident of fraud and corruption which occurred within the municipality. This may include:

- Harassment or victimisation: The Municipality acknowledges the fact that the decision to report a concern can be a difficult one to make, not least because of fear of reprisal from those responsible for the irregularity. The Municipality will not tolerate harassment or victimisation and will take action to protect employees when they raise a concern in good faith. This does not mean that if an employee is already the subject of disciplinary or other action, that action will be halted as a result of their whistle blowing.
- Confidentiality: Cape Agulhas will do its best to protect an individual's identity when he/she raises a concern and does not want their identity to be disclosed. It must be appreciated, however, that the investigation process may reveal the source of the information and a statement by the employee may be required as part of the evidence.

False allegations and allegations with no merit

- 4.13 All managers should discourage employees or other persons from making allegations which are false or have no merit and made with malicious intentions. Where such allegations are discovered, the person who made the allegations must be subjected to firm disciplinary and/or other appropriate action.

SECTION II: COMPONENTS OF THE PLAN

5. GUIDING PRINCIPLES

- 5.1 The main principles upon which this Plan is based are aligned to the Local Government Anti-Corruption Strategy, and include the following:

- Creating a culture which is ethical and intolerant to fraud and corruption;
- Deterrence of fraud and corruption;

- Preventing fraud and corruption which cannot be deterred;
- Detection of fraud and corruption;
- Investigating detected fraud and corruption;
- Taking appropriate action in the event of such irregularities, for example disciplinary action, recovery of losses, prosecution, etcetera; and
- Applying sanctions, that includes blacklisting and prohibition from further employment.

6. COMPONENTS

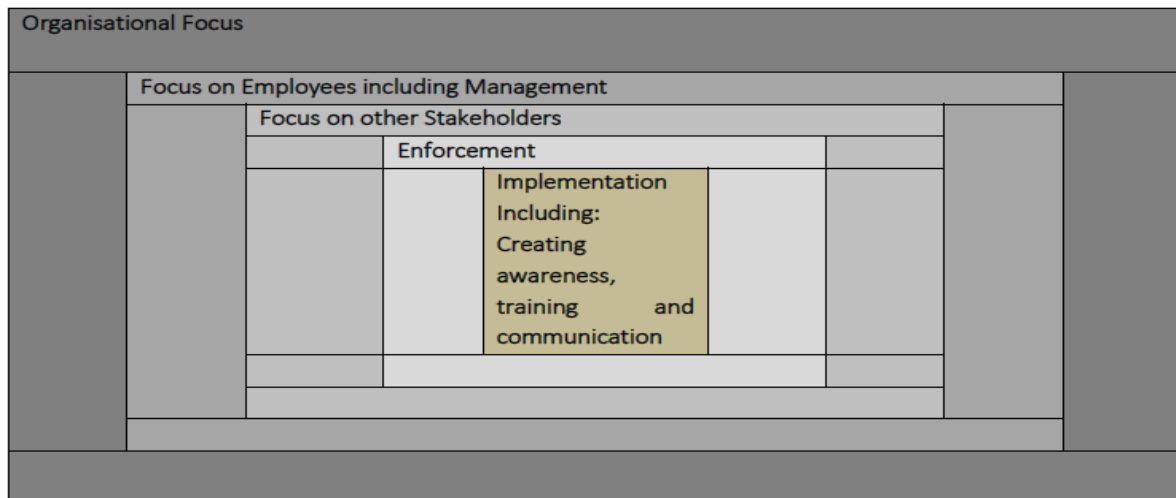

6.1 The components of the Plan for the Municipality are the following:

- Focus on the organization
- Focus on employees
- Focus on other stakeholders
- Enforcement
- Implementation

SECTION III: APPROACH TO FRAUD

7. PREVENTION

7.1 The approach to fraud prevention in the Municipality can be summarised as follows:

8. FOCUS ON THE ORGANISATION

Codes of Conduct for Municipal Employees and Councilors

- 8.1 In terms of Section 1 of the MSA, the Code of Conduct for Councilors contains the following categories:
- General conduct of councilors
 - Attendance at meetings;
 - Disclosure of interests;
 - Personal gain;
 - Declaration of interests;
 - Full-time councilors;
 - Rewards, gifts and favours;
 - Unauthorised disclosure of information;
 - Intervention in administration;

- Council property;
 - Duty of chairpersons of municipal councils;
 - Breaches of Code; and
 - Application of Code to traditional leaders.
- 8.2 In terms of Section 2 of the MSA, the Code of Conduct for Municipal employees contains specific conduct standards categorised as follows:
- General Conduct;
 - Commitment to serving the public interest;
 - Personal gain;
 - Disclosure of benefits;
 - Unauthorised disclosure of information;
 - Undue influence;
 - Rewards, gifts and favours;
 - Council property;
 - Payment of arrears;
 - Participation in elections;
 - Sexual harassment;
 - Reporting duty of staff members; and
 - Breaches of Code.
- 8.3 A gifts policy has been implemented in order to ensure that both the acceptance and offering of business courtesies, including gifts, by all employees of the Municipality occurs only within the ethical standards as prescribed by the Municipality.
- 8.4 A robust system for the declaration of private business interests and actual or potential conflicts of interest by all employees and keeping of a centralised record thereof have been developed.

Systems, policies and procedures

- 8.5 The Municipality has a number of systems, policies and procedures designed to ensure compliance with specific laws and regulations and basic internal control.
- 8.6 All employees and other stakeholders are expected to comply with the applicable policies and procedures. A fundamental risk in this area is the lack of knowledge, awareness, effective communication and training relating to prevailing systems, policies and procedures. To address this fundamental risk, the applicable policies are made available on the Municipality's website.
- 8.7 Non-compliance with policies and procedures is a risk with the potential to seriously impact the success of the Plan of the Municipality. This will be addressed by developing clearly defined communication and training strategies to create awareness of all policies and procedures in order to ensure that all employees are made aware of and adequately trained in the implementation of policies and procedures relevant to their duties and responsibilities, for example provisions for all employees to acknowledge, in writing, that they have read the policies and procedures applicable to their duties, have undergone relevant training and/or are aware of these policies and procedures, etc.
- 8.8 A structured monitoring mechanism will be developed for the keeping of proper records of the policies and procedures that are being updated, and of new policies and procedures that are being developed in order to set clear targets and monitor progress.

Human Resources – Employment Practices

8.9 The Municipality is committed to developing human resources systems, policies and procedures, which incorporate fraud and corruption prevention practices. There is a risk of poor implementation of its human resource systems, policies and procedures and therefore Municipality undertakes testing thereof during internal audits in which control shortcomings are subsequently addressed.

8.10 Employee focused anti-fraud and anti-corruption measures should be visible from the point of advertising a vacant post, recruitment, specific employment conditions, maintaining high employee morale, performance management and even exit procedures upon resignation or retirement. The approaches indicated below are vital to the Municipality's efforts in this regard:

- **Advertising posts:** The inclusion of specific provisions when advertising posts to provide an indication to applicants that only people with the highest levels of personal integrity will be considered and that submission to appropriate pre-employment screening processes are obligatory for consideration in any post.
- **Pre-employment screening and probity:** The municipality intends ensuring that pre-employment screening procedures are applicable to all employees, regardless of level, including employees acting in specific positions, seconded employees and temporary and contract workers. Relevant probity will be included in all employee screening processes.
- **Ongoing financial disclosure and lifestyle audits:** Senior managers will be obliged to declare specific personal assets and private business interests.
- **Employee induction programmes:** Employee induction is an opportunity to introduce employees to the culture and ethos of the Municipality. Efforts will be made to ensure that organisational strategy, professional ethics and conduct standards are included in employee induction. Specific steps will also be developed to include seconded employees, interns and temporary and contract workers in relevant aspects of induction programmes.
- **Obligatory leave periods:** In order to limit the risk of over-worked employees who could become careless leading to non-compliance to internal control and to further limit the risk of fraud and corruption the municipality will compel all employees to take annual leave. This control also limits the risk of unethical individuals monopolising specific tasks.

Managers will be encouraged to ensure that appropriate controls, for example appropriate scrutiny and supervision, are put in place in instances where employees do not take leave for extended periods of time due to work commitments.

- **Exit procedures for employees and control over assets:** The exit procedures for employees leaving the Municipality usually require the return of assets and an exit interview. Steps will be taken to ensure that specific follow-up time frames are set to encourage managers to apply the requirement related to the return of assets more promptly.

The Municipality will ensure that an exit interview process is in place which includes the assessment of the perceptions of the professional ethics and conduct standards within the Municipality. This will assist in identifying areas for improvement.

Discipline

- 8.11 The Municipality will be consistent and efficient in its application of disciplinary measures. Additional measures which will be considered include:
- Communication of specific disciplinary standards and forbidden conduct;
 - Introducing a system where the application of disciplinary measures is applied consistently;
 - Steps for ongoing training of managers in the application of disciplinary measures;
 - Where managers are found to be inconsistent and/or inefficient in the application of discipline, the municipality will consider firm action; and
 - Publication (within the permissible legal framework) of the outcomes and sanctions of disciplinary actions, including lessons learned. The successful achievement of these initiatives, together with their communication is expected to have a deterrent effect.

Financial Systems and Control

- 8.12 Appropriate finance policies and procedures are also necessary to ensure appropriate internal control over finance management and to reduce fraud and corruption risks. The effectiveness of the existing finance policies and procedures will also be tested during the course of internal audits and shortcomings identified will be addressed.
- 8.13 Management and other officials of the Municipality must assist the Municipal Manager in coordinating the financial systems and controls within the Municipality.
- 8.14 The finance policies, procedures and other prescripts of the Municipality prescribe various controls, which, if effectively implemented, would reduce fraud and corruption within the municipality. These controls may be categorised as follows, it being recognised that the categories contain overlapping elements:
- (a) Prevention controls, which are further subdivided into:
 - i. Authorisation Controls which require that all transactions must be authorised or approved by an appropriate responsible person and that the limits for these authorisations are specified in the delegations of authority of the Municipality.
 - ii. Physical Controls which are concerned mainly with the custody of assets and involve procedures and security measures designed to ensure that access to assets is limited to authorised personnel.
 - (b) Detection controls, which are further subdivided into:
 - i. Arithmetic and accounting controls, which are basic controls within the recording function which ensure that transactions to be recorded and processed have been authorised, are complete, are correctly recorded and accurately processed. Such controls include checking arithmetical accuracy of records, the maintenance and checking of totals, reconciliation, control accounts and accounting for documents.

- ii. Physical controls, which relate to the security of records and are similar to preventive controls in that they are also designed to limit access.
- iii. Supervision, which relates to supervision by responsible officials of day to day transactions and the recording thereof.
- iii. Management Information, which relates to the review of management accounts and budgetary controls. These controls are normally exercised by management outside the day-to-day routine of the system.

(c) Segregation of duties

- i. One of the primary means of control is the separation of those responsibilities or duties that would, if combined, enable one individual to record and process a complete transaction, thereby providing him/her with the opportunity to manipulate the transaction irregularly and commit fraud and corruption.
- ii. Segregation of duties reduces the risk of intentional manipulation or error and increases the element of checking.
- iii. Functions that should be separated include those of authorisation, execution, custody, recording, and, in the case of computer-based accounting systems, systems development and daily operations.
- iv. Placed in context with fraud and corruption prevention, segregation of duties lies in separating either the authorisation or the custodial function from the checking function.

8.15 Despite the existence of policies and procedures to establish and maintain internal control, deficiencies such as ineffective application of policies and procedures resulting from lack of training, expertise, knowledge and capacity has the potential to lead to increased incidence of fraud and corruption.

8.16 The Municipality will continue to initiate steps to address the problem of lack of training, expertise and knowledge in systems, policies and procedures to improve internal control. Areas of weakness will be identified during audits and risk assessments.

8.17 Furthermore, the Municipality will also continue to re-emphasise to all supervisors that consistent compliance by all employees with internal control is one of the fundamental systems in place to prevent fraud and corruption. Managers will be encouraged to recognise that internal control shortcomings identified during the course of audits are, in many instances, purely symptoms and that they should strive to identify and address the causes of these internal control weaknesses, in addition to addressing the consequences of such control weaknesses.

8.18 Where managers do not comply with basic internal controls, for example non-adherence to the delegation of authority limits, firm action(s) will be considered.

Procurement

8.19 The MFMA requires every municipality to have a procurement policy that is fair, equitable, transparent, competitive and cost effective.

8.20 Further, the MFMA stipulates that the procurement policy of the municipality must at least address the following aspects:

- The barring of persons from participating in tendering or other bidding processes that have:
 - Been convicted of fraud or corruption during the past five years;
 - Willfully neglected, defaulted on or failed to comply with a government contract during the past five years; and
 - Tax matters that are not cleared by SARS
- 8.21 The Municipal Manager of the Municipality must implement the procurement policy and take all responsible steps to ensure that a proper mechanism and separation of duties in the procurement system are in place to minimise the risk of fraud, corruption, favouritism and unfair and irregular practices.
- 8.22 At a minimum, the procurement policy of the municipality should contain the following anti-fraud and anti-corruption provisions:
- The range of supply chain management processes that the municipality may use;
 - When a particular process must be used;
 - Procedures for each type of process;
 - Open and transparent pre-qualification processes for tenders and other bids;
 - Competitive bidding processes;
 - Bid documentation, advertising of and invitations for contracts;
 - Procedures for:
 - The opening, registering and recording of bids in the presence of interested parties;
 - The evaluation of bids;
 - Negotiating the final terms of the contracts; and
 - The approval of bids;
 - Screening processes and security clearances for prospective contractors on tenders or other bids above a prescribed value;
 - Compulsory disclosure of conflicts of interests;
 - Any additional measures for:
 - Combating fraud, corruption, favouritism and unfair and irregular practices in the municipality's supply chain management; and
 - Promoting ethics of officials and other role players involved in the municipality's supply chain management.

Risk Management and Assessment

- 8.23 In order to identify and address risks facing the Municipality, a risk assessment will be performed on an annual basis. This process will be complimented by the specific identification of existing controls to mitigate risks identified. Additional actions to further mitigate these risks will culminate in a risk management plan.
- 8.24 Presentations to employees of the Municipality will be conducted in order to ensure that they have a more detailed understanding of the fraud and corruption risks facing the municipality and the areas wherein these risks exist, thus enhancing the prospect of detecting irregularities earlier.

Fraud Detection Awareness

- 8.25 The municipality will conduct specific detection awareness campaigns in areas which are at high risk of unethical conduct, fraud and corruption on a regular basis. This will include the conducting of presentations to employees, including managers, to ensure

that they have a more detailed understanding of the risks associated with these areas, thus also enhancing the prospect of detecting irregularities earlier. These include:

- Recruitment of staff;
- Procurement, for example emergency procurement, sole suppliers, etc.;
- Financial Systems and Control, for example payment of suppliers, receipt and banking of revenue received.

Internal and External Audit

8.26 The MFMA stipulates that a Municipality must maintain a system of internal audit under the control and direction of an audit committee. Furthermore, the internal audit function of the municipality is required to report on matters relating to:

- Internal Control;
- Accounting procedures and practices;
- Risk and risk management;
- Loss control; and
- Compliance with applicable legislation.

8.27 The Municipality has an Internal Audit Unit, which will include anti-corruption capacity under the guidance of an Audit and Performance Audit Committee. In terms of its Charter, the primary role of the Audit and Performance Audit Committee is to:

- Evaluate the performance of internal audit;
- Review the internal audit function's compliance with its mandate as approved by the Audit and Performance Audit Committee;
- Review and approve the internal audit charter, internal audit plans and internal audit's conclusions with regard to internal control;
- Review significant differences of opinion between management and the internal audit function;
- Evaluate the independence and effectiveness of internal auditors; and
- Review the co-operation and co-ordination between the internal and external audit function and coordination between the formal internal audit work plans with external auditors to avoid duplication of work.

8.28 The Internal Audit unit within the Municipality will be responsible for the investigation of allegations of fraud and corruption that is brought to its attention. Additionally, it will support the risk management procedures from a fraud risk identification perspective.

8.29 The Municipality recognises the fact that the positive support by all its managers for Internal Audit and its functions, speedy response to, and the addressing of queries raised by Internal Audit is vital to the success of the Plan. Where managers are found to be slow in addressing internal control and shortcomings raised by Internal Audit, firm action will be considered.

8.30 Awareness strategies will also be developed to enhance managers' understanding of the role of Internal Audit.

8.31 The Municipality is the subject of annual external audits. These audits include the following tasks:

- Examining evidence supporting the amounts and disclosures in the financial statements;

- Assessing the accounting principles used and significant estimates made by management; and
- Evaluating the overall financial statement presentation.

Physical and Information Security

- 8.32 The Municipality's main physical security threat arises in the area of control over its physical assets, facilities and employees. Security personnel and access systems are deployed to mitigate this threat. However, control over security personnel and access systems should continuously be reviewed for adequacy.
- 8.33 The Municipality will also consider conducting a regular detailed review of the physical security arrangements at its offices and other sites and improve weaknesses identified. Specific focus areas will be physical security over infrastructure, assets and staff.
- 8.34 Furthermore, the Municipality will continue to pursue steps to ensure adequate security over its people, confidential information and information systems.
- 8.35 The Municipality will ensure that all employees are sensitised on a regular basis to the fraud and corruption risks associated with information security and the utilisation of computer resources, in particular access control, and ensure that systems are developed to limit the risk of manipulation of computerised data.
- 8.36 Communiqués will be provided to all employees on the management of intellectual property and confidential information to limit the risk of manipulation of information.
- 8.37 Regular communications will be forwarded to employees pointing out security policies, with a particular emphasis on e-mail and Internet usage and the implications (for example disciplinary action) of abusing these and other computer related facilities. Where employees are found to have infringed on prevailing policy in this regard, disciplinary action will be taken.
- 8.38 Regular reviews of information and computer security will also be considered. Weaknesses identified during these reviews will be addressed.

9. FOCUS ON EMPLOYEES

- 9.1 Key ambassadors for the successful implementation of this Plan for the Municipality are its employees. In essence, this means that their conduct often forms the base upon which the Municipality as an organisation is judged. The municipal employees therefore have to demonstrate behaviour beyond reproach in the execution of their duties.

10. FOCUS ON OTHER STAKEHOLDERS

- 10.1 The Municipality has several other stakeholders with whom it interacts. These are indicated below:
- Trading partners, for example suppliers, contractors, consultants;
 - Employee representative organisations;
 - COGTA;
 - SALGA; and
 - The general public.

10.2 All stakeholders with whom the Municipality interacts are expected to abide by the principles contained in this Plan. Although the Municipality has limited legal rights to enforce these principles on external stakeholders, it can exercise moral persuasion to gain compliance to the principles contained in the Plan or choose not to enter into relationships with stakeholders who do not comply.

TRADING PARTNERS

10.3 It is a common perception that employees face the greatest challenge to their integrity in the form of enticement to accept bribes from unethical suppliers, contractors and consultants. Furthermore, these trading partners are also often viewed as untrustworthy in delivery of goods and/or services.

10.4 Approaches to address the risk of fraud and corruption relating to trading partners are as follows:

- Appropriate terms and conditions in invitations to propose for services relating to the standard of business ethics expected by the municipality;
- Appropriate pre-award screening of credentials supplied by contractors;
- Provisions for the compulsory declaration of actual and/or potential conflicts of interest both by suppliers and employees of the municipality dealing with these suppliers;
- Appropriate contract terms and conditions indicating the conduct expected by the municipality;
- Ongoing communication of these standards;
- Sound project management;
- Monitoring and evaluation of breaches;
- Taking sound action in the event of breaches such as:
 - Prosecution;
 - Loss recovery; and
 - Placing of appropriate prohibitions on future contracts and cancellation of existing contracts.

EMPLOYEE REPRESENTATIVE ORGANISATIONS

10.5 The Municipality is committed to complying with the resolutions of recognition agreements with trade unions. Nonetheless, it is also expected of trade union representatives to comply with the principles of this Plan of the Municipality.

Department of Cooperative Governance and Traditional Affairs (COGTA)

10.6 COGTA is a national department and its mission is to support the delivery of municipal services to the right quality and standard; promoting good governance, transparency and accountability, ensuring sound financial management and accounting and building institutional resilience and administrative capability. Efforts will be made to ensure that this stakeholder is also made aware of the principles contained in this Plan and the conduct encouraged by the municipality.

SALGA

10.7 SALGA is an organisation mandated by the South African Constitution to assist in the transformation of local government in South Africa. SALGA plays a core role in areas related to local government transformation and as a national representative of the local

government sector. The municipality will also ensure that SALGA is made aware of this Plan and appropriately compliment it when dealing with the municipality.

The general public

10.8 Members of the general public will also be made aware of the Municipality's commitment to fraud prevention and are encouraged, through awareness programmes, to report irregularities affecting the Municipality.

11. ENFORCEMENT

11.1 No Anti-Corruption and Fraud Prevention Plan would be complete without enforcement forming an integral component for instances where fraud and corruption occur.

12. REPORTING AND MONITORING OF FRAUD AND CORRUPTION

Reporting Channels

12.1 Incidents of corruption and fraud must be reported in accordance with the Anti-Corruption and Fraud Prevention Policy.

12.2 Parallel to the above enforcement approaches, is the task of fixing of controls to reduce future recurrence of fraud and corruption in the event of breaches. The resolution mechanisms, which can be pursued in enforcement are illustrated below.

13. IMPLEMENTATION AND AWARENESS

13.1 This Plan will be reviewed on an annual basis, whilst progress with the implementation of the various components will be reviewed on a quarterly basis. In the latter regard, specific priorities stemming from this Plan, actions to be taken, responsible persons and feedback dates relating to progress made will also be set.

Monitoring

13.2 The Municipality will ensure that a fraud and corruption information system is developed for the following purposes:

- (a) Recording all allegations;

- (b) Tracking progress with the management of allegations;
- (c) To facilitate the early identification of systemic weaknesses and recurring risks, and inform managers and employees of systemic weaknesses/risks; and
- (d) Provide feedback to employees and other whistle blowers on the management of allegations

Creating awareness

13.3 This component of the Plan comprises two areas, namely education and communication.

Education

13.4 Formal awareness presentations will be conducted for employees of the Municipality in planned workshops. The ongoing creating of awareness amongst all employees is the responsibility of all managers. Approaches to create awareness amongst employees will address the following issues:

- Employee awareness and the application of professional ethics in their work environment;
- Employee awareness of the current systems, policies and procedures relating fraud and corruption and their rights should they blow the whistle;
- Encouraging employees to blow the whistle on fraud and corruption within their work environments; and
- Encouraging employees to understand specific fraud and corruption related risks the municipality may be exposed to, thus enhancing the prospect of detecting irregularities earlier.

Communication

13.5 The objective of communication is to further create awareness amongst employees, the public and other stakeholders of this Plan in order to facilitate a culture where all stakeholders strive to contribute towards making it a success. This will increase the prospect of fraud and corruption being reported and improve the Municipality's prevention and detection ability.

13.6 Communication approaches that will be considered by the municipality are the following:

- An official launch for the Plan aimed at all stakeholders;
- Posters, newsletters and pamphlets to advertise the Codes of Conduct and Code of Ethics for staff members and Councillors, aimed at employees, councillors, the public and other stakeholders;
- A suggestion box for employees and other stakeholders to make submissions which could enhance the further development of the Plan;
- Ensuring that ethics promotion is a fixed agenda item in meetings;
- Signing of declarations of commitment by all employees to the Plan;
- Endorsements of other correspondence directed at providers of goods and/or services with pro-ethics and anti-fraud and anti-corruption messages; and
- Screensavers on computers with appropriate pro-ethics and anti-fraud and corruption messages; and
- Publishing the Plan and successes of its implementation in the Annual Report of the Municipality

Implementation structure

13.7 The Fraud and Risk Management Committee (FARMCO) will be responsible for direct oversight in respect of the administration, revision and interpretation of this Plan. FARMCO will in turn give assurance reports to the Audit and Performance Audit Committee and Council on the effective execution of this Plan.

The terms of reference of the FARMCO will include the following in relation to the Anti-Corruption and Fraud Prevention Plan:

- Securing buy-in from all stakeholders;
- Information sharing;
- Ongoing identification of weaknesses in systems and solutions;
- Creating awareness and ensuring adequate training and education to promote the Plan; and
- Assessing progress and ongoing maintenance and review

14. RELATED POLICIES

The following documents are related to this plan:

- Anti-corruption and Fraud Prevention Policy
- Anti-corruption and Fraud Prevention Strategy

15. REVIEW

This plan will be reviewed at least annually and updated if needed.

16. EFFECTIVE DATE

This plan shall come into effect on 1 July 2022.
