Although the Cape Agulhas Municipality is fully compliant in respect of the monthly budget report to council, effective from March 2014, the quality of the report in terms of its completeness and usefulness for council decision making still needs improvement which will be addressed as an ongoing process.

## Summarized explanation

## Operational revenues

The total revenues for the period comparisons with the previous period is negative at R146m compared to R152m for the previous period. This can mainly be attributed to the additional grants that was allocated in the previous financial year compared to the current.

## Operational expenditures

Comparative operational expenditures also reflect lower compared to the previous year. This is mainly due to expenditure items not recognized to date in the current financial year. The reasons are the implementation of the new Asset management module (Demand Side Management) that is still work in progress. This will account for the depreciation expenditures.
Performance for the period totals R79,865m for the period ending 30 November 2018

## Capital spending

Capital expenditures outperformed the corresponding period ending 30 November 2017. That is mainly due to the AREA F project that was finalized by August. The spending of the capital budget is however behind schedule and the municipality risk the treat of not achieving its capital spending targets as required. This will impact on service delivery given that most of the major project directly impact on service delivery objectives.

Council identified the following ratios as main focus areas and these ratios will be monitored on a monthly basis and action plans developed to ensure the achievement of council's sustainability objectives.
