Analysis of variance on the C4 report with a 10% variance on the performance of the municipality.

Financial Performance

Revenue Items

Fines, penalties, and Forfeits (-68%)

The abovementioned item must be accounted more regularly to ensure transactions are processed as and when events occurred. Negative variance of 68% as a result that budgeted amount to date exceeds actual revenue received to date.

Water service charges (+32%)

Sale from water services is positive based on the Adjustment Budget, this is mainly due to the change in the municipal cost structure.

Rental from Fixed Assets (+205%)

Actual rental recognised is on par, but budgeted cash flow needs to be aligned to its expenditure.

Gains on disposal of assets (-82%)

Gains on disposal budget has been adjusted downwards from R15m to R10m. Revenue will be recognised as disposal take place when conditions are met of sales.

Operational Revenue (+173%)

The reason for the positive variance is because the budget cash flow not aligned to its actual spending patterns. Development chargers were anticipated for latter part of budget year, but transactions already incurred for which receipts were obtained.

Expenditure Items

<u>Inventory Consumed (-30%)</u>

The reason for the negative variances is combination of different over and under spending. Items included under this variance include consumables, materials and supplies, housing stock etc. The main contributor is Housing Grant (Rent to Own) of R15m. Administration will have the analyse the actual process of this project to ensure that actual and budget spending coincide.

Debt Impairment (-100%)

The reason for this variance is debt impairment is accounted for at year-end, but Provincial Treasury has already highlighted it to be indicated on monthly basis. Internal processes and procedures will have to be addressed with relevant roll players before implementation phase.

Interest paid (+63%)

Payments on external loans are made every six months, interest on these loans must be accounted for on monthly basis.

<u>Irrecoverable debts written off (-90%)</u>

Just like debt impairment, irrecoverable debt needs to be accounted for on a monthly basis for a more accurately reflection. This variance relates to Traffic Law Enforcement.

Contracted Services (-17%)

This variance is results of different under-over expenditure as contracted services occurred over different items for example buildings, computer equipment, refuse removal etc.

Operational losses (-15%)

Operational losses are combination of many items. The budget on these items will be spend within the next few reporting cycle which will balance the actuals with the budget.
