Year to date Cash flow information reports a positive balance. Council's cash resources will be closely monitored to ensure that the liquidity status of council is maintained.

The adoption of the Long-term financial plan and implementation of the strategy to support the achievement of Council's objectives should also improve the Cash flow performance over the reporting period.

The above ratios indicate that the municipality is financially stable and adequately funded to continue with its operations.

The level of employee's actual costs for the year to date is $38.6 \%$ which is less than the budgeted percentage of $39.4 \%$. It is therefore important for council to monitor and managed the employee related cost effectively within the set norm between $35 \%$ and $40 \%$.

The Capital Replacement Reserve will require minor adjustments at year end in order to ensure that it is cash backed. The "Cash \& Cash Equivalents" are sufficient to cover outstanding debt with specific reference to any unspent grant funding.
