### 1. Purpose of Report

The accounting officer must, within 10 days of the end of each quarter, submit a report on the implementation of the supply chain management policy to the mayor. The purpose is to report to the Mayor in terms of section 6(3) of the Supply Chain Management Regulations on the implementation of the Supply Chain Management Policy for the second quarter from **1 October 2018 – 31 December 2018**, in order to strengthen Council's oversight role.

### 2. Implementation of Supply Chain Management Policy

The Supply Chain Management Policy was revised and adopted by Council in March 2017 and reviewed during March 2018 to fully comply with the SCM Regulations. The SCM Policy has been reviewed by incorporating the legislative amendments and recommendations by the Auditor-General and Provincial Treasury to give effect to the compliance aspect.

This will enable the Supply Chain Management Unit (SCMU) to further streamline procedures and processes to promote more efficient and effective service delivery to all internal and external stakeholders.

## 7. Logistics Management

Inventory levels are set at the start of each financial year. These levels are set for normal operations. In the event that special projects are being launched by departments, such information is not communicated timely to the Stores section in order for them to gear them to order stock in excess of the normal levels.

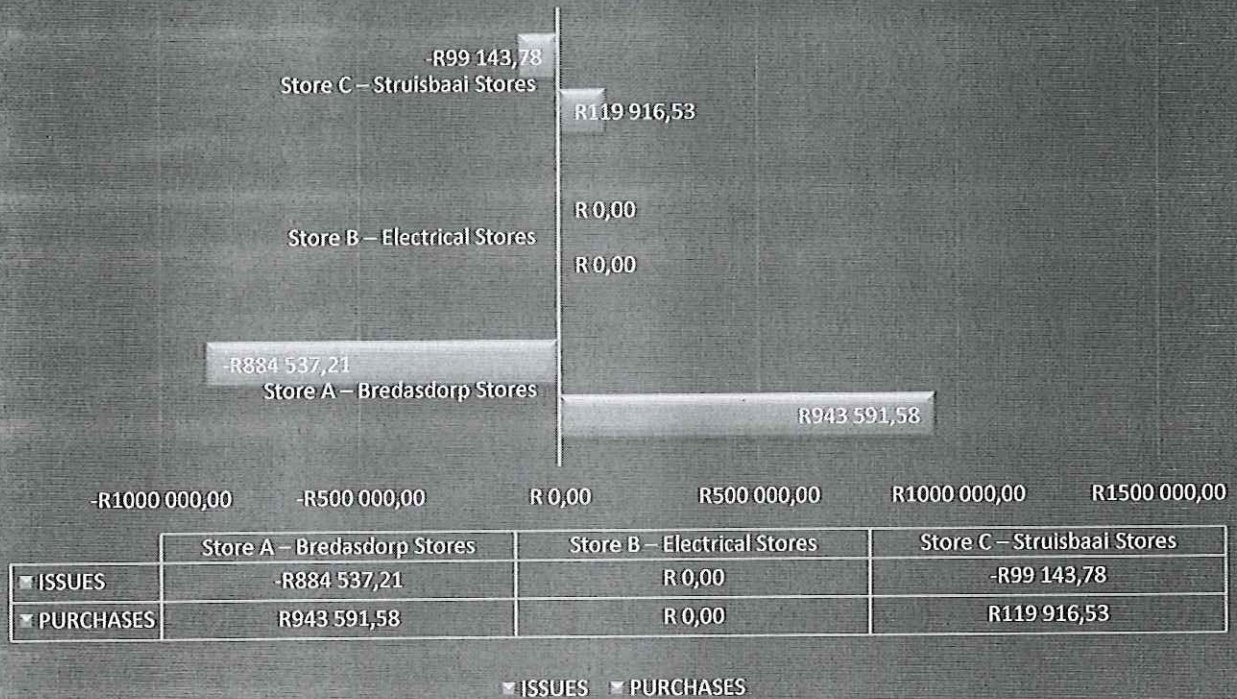

Internal controls are in place to ensure that goods and service that are received are certified by the responsible person which is in line with the general conditions of contract.

Regular checking of the condition of stock is performed. Quarterly stock counts are performed at which surpluses, deficits, damaged and redundant stock items are identified and reported to Council.

As at **31 DECEMBER 2018**, the value of stock at the municipal stores amounted to:

	OPENING VALUE	PURCHASES VALUE	ISSUES VALUE	BALANCE VALUE
Store A – Bredasdorp Stores	R 1 376 102,80	R 314 485,07	-R 230 343,35	R 1 460 244,52

## STOCK PURCHASES VS ISSUES - 1 OCT - 31 DEC 2018

### 8. Procurement Plan

One of the functions of SCM is to ensure that goods, works or services are delivered to the right place, in the right quantity, with the right quality, at the right cost and the right time in a normal procurement environment.

In order to fulfill the above function the SCM unit, together with the end-user, must apply strategic sourcing principles to determine the optimum manner in which to acquire goods, works or services. Subsequent to this the plan is updated on a regular basis and distributed to the user departments in order to ensure that they spend their budgets effectively, efficiently and economically.
