Professional Service Providers are required to provide the professional services necessary to implement the projects, which, in terms of the Municipal Finance Management Act, 2003 and the Municipal Supply Chain Management Regulations, 2005, must be procured through a competitive bidding process.

The Professional Service required may be provided by a single firm with all the necessary competencies within the firm, a joint venture of Professional Service Providers. The Joint Venture shall comply with the competencies required irrespective of the nature of the Joint Venture and will be evaluated as a single entity.

The purpose of this document is therefore to invite tenders from Professional Service Providers of suitably qualified and experienced consulting firms for:

For the purposes of this contract, the term “sub-contractor” (used in the context of subcontracting to the Service Provider) shall include all sub-consultants employed by the Service Provider.

A financial penalty, as described in Schedule 19, shall be applied in the event that the Service

Notwithstanding the application of penalties, the Service Provider’s attention is drawn to other sanctions that may be applied by the Employer (listed in Schedule 19) with due consideration to the circumstances.

11.2 Monitoring the use of sub-contractors/sub-consultants

In order to ensure that not more than 25% of the value of the contract is not sub-contracted to sub-contractors that do not qualify for at least the preference points that the Service Provider qualified for, the Service Provider shall submit to the Employer, as and when required, a BBEE Sub-contract Expenditure Report.

The Service Provider shall submit to the Employer documentary evidence (either an original valid B-BBEE status level verification certificate in terms of the Construction Sector Charter on Black Economic Empowerment, or an Exempted Micro Enterprise certificate issued by a registered auditor, accounting officer (as contemplated in section 60(4) of the Close Corporation Act, 1984 (Act No. 69 of 1984)) or an accredited verification agency, or certified copies thereof) in terms of the Preferential Procurement Regulations, 2011) of the B-BBEE status level of every sub-contractor employed by the Service Provider. Until such time as documentary evidence as described above has been submitted to the Employer, a subcontractor shall be deemed to be a non-compliant contributor.

Other than attendance at at-least fortnightly site meetings once the construction contract is set, there are requirements for regular management meetings in respect of various projects. The Service Provider shall however convene management meetings on an ad-hoc basis as and when necessary, and when called upon to do so by the Employer. The Service Provider shall be represented at these meetings by the lead engineer (or project manager).

15 CLAIMS FOR PAYMENT

Pricing Assumptions

Pricing Assumptions mean the criteria as set out below, read together with all Parts of this contract document, which it will be assumed in the contract that the tenderer has taken into account when developing his prices.

1. The short descriptions given in the Activity Schedule below are brief descriptions used to identify the activities for which prices are required. Detailed descriptions of the activities to be priced are provided in the Scope of Work.
 - 1.1 Persons in Terms of the Engineering Profession Act, 2000 (Board Notice 190 of 2010), where applicable,
2. While it is entirely at the tenderer's discretion as regards pricing the Activity Schedule below, guideline tariffs of fees or indicative time based fee rates are gazetted annually by each of the built environment professional bodies, which are useful documents that will give tenderers some idea of industry norms against which they may compare their rates, sums, percentage fees and/or prices as applicable.
3. For the purpose of the Activity Schedule, the following words shall have the meanings hereby assigned to them:

Unit:	The unit of measurement for each item of work.
Quantity:	The number of units of work for each item.
Rate:	The agreed payment per unit of measurement.
Amount:	The product of the quantity and the agreed rate for an item.

Sum: An agreed lump sum payment amount for an item, the extent of which is described in the Scope of Work, but the quantity of work which is not measured in any units.

Percentage Fee: The agreed fee for a service, the extent of which is described in the Scope of Work, expressed as a percentage of a construction contract value or part thereof.

4. A rate, sum, percentage fee and/or price as applicable, is to be entered against each item in the Activity Schedule. An item against which no price or a nil rate is entered will be considered to be covered by the other prices or rates in the Activity Schedule.
5. The rates, sums, percentage fees and prices in the Activity Schedule are to be fully inclusive prices for the work described under the several items. Such prices and rates are to cover all costs and expenses that may be required in and for the execution of the work described in accordance with the provisions of the Scope of Work, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the Contract Data, as well as overhead charges and profit. Time based rates shall include for all payments to administrative, clerical, and secretarial staff used to support professional and technical staff. Where the Service Provider elects not to detail or identify a particular activity, the cost shall be assumed to have been included in, or spread across, the other Prices in order to fulfill the obligation to complete the services for the tendered total of the Prices.

6. Where quantities are given in the Activity Schedule, these are provisional and do not necessarily represent the actual amount of work to be done. The quantities of work accepted and certified for payment will be used for determining payments due and not the quantities given in the Activity Schedule. In respect of time-based services, the allocation of staff must be agreed with the employer before such services are rendered.
7. Tenderers will note that the prices for some items are developed from a tendered fee expressed as a percentage of an estimated contract value (construction cost), or part thereof, which for tendering purposes, are given. Tenderers are required to insert their tendered percentage fee in the space provided. Where prices have been developed from a tendered fee, the final amount due to the Service Provider will be adjusted according to final construction contract values based on the percentage fee tendered.

Only one (flat rate) percentage fee per item may be tendered. A percentage fee tendered on a sliding scale will make the tender non-responsive.

8. Where the estimated construction value is broken up into component parts for the purposes of determining fees in respect of different disciplines, the “make-up” of each component is described in the Scope of Work. While the employer has every intent to complete the full scope of works, the employer reserves the right to reduce or increase the scope of works according to the dictates of the budget, or to terminate this contract, without adjustment to the agreed rates, sums or fees and without payment of any penalty in this regard. The Service Provider shall however be entitled to pro-rata payment for all services carried out in terms of any adjustment to the Scope of Work or, in the case of termination, remuneration and/or reimbursement as described in the Standard Professional Services contracts.
9. The following table shall be used for proportioning the tendered basic fee for normal services, for each discipline, over the various stages of the services:

Stage of Services	Percentage points for each stage
1. Inception	5
2. Concept and Viability	25
3. Design Development	25
4. Documentation and Procurement	15
5. Contract Administration and Inspection	25
6. Close-Out	5

“Close-Out” may be included under the Contract Administration and Inspection Stage of the Service, in which case the Service Provider will then be required, at the time of issue of the Certificate of Completion (to the Contractor) to claim the total fee (100%) for normal services, less a 5% retention amount of the total fee. The retention will be released on successful completion of the contractor’s defects liability period.

If the Contractor is in default which results in delay, or if an extension of time is granted in respect of which there is no adjustment of the contract price/value, then the Service Provider shall be entitled to 25% of the full fee pro-rated for the period in question for Contract Administration and Inspection (in addition to construction monitoring charges) as follows:

Rate per week for additional contract administration and inspections
 = percentage points for Stage 5 x percentage basic fee tendered x final construction contract price/value / final contract duration up to practical completion/taking-over (including any valid extensions of time), applied to the delay period (in weeks).

10. Tendered time-based fees (where the unit of measurement is time based) shall be adjusted in terms of clause 3.16 of the Standard Professional Services Contract. All other rates, sums, percentage fees or prices (as applicable) tendered in the Activity Schedule shall be final and binding and shall not be subject to any variation throughout the period of the contract. This is due to the fact that the fee for normal services rendered is typically developed from a construction contract value which will be subject to escalation/contract price adjustment, and the Service Provider will benefit from adjustments in this regard. In developing any other rates, (excluding time based), tenderers must make allowance for annual increases.
11. Provision for time-based services which fall beyond the scope of normal services as described in the Scope of Work has been made, this provision is for services provided on instruction from the Employer and will be deducted in whole or part if not required. The estimated period of involvement of each category of person must be agreed with the Employer before any work in this regard commences.
12. The categories of persons (A, B, C, D) in respect of time-based fee rates for engineering services shall be as defined in Clause 4.2 of the Guideline for Services and Processes for Estimating Fees for Persons Registered in terms of the Engineering Profession Act, 2000 (Board Notice 117 of 2013).
13. A higher category person undertaking lower category work will be reimbursed, in respect of time-based fees, at the lower category rate.
14. Where a provisional sum has been provided in respect of additional construction monitoring services, the service provider shall, when called upon to do so by the Employer, submit a proposal in respect of such construction monitoring to the Employer for approval. The Service Provider is not entitled to claim the full provision in this regard, but shall rather submit a realistic proposal based on the requirements of the project, and as set out in the Scope of Work, which may be accepted, or rejected, at the sole discretion of the Employer.
15. Where provisional sums are provided in respect of services, etc., these amounts may be omitted in part or in full should the services, etc. not be required. Where services are to be sub-contracted out by the Service Provider, which do not exceed R200 000.00 (including VAT) in value, the Service Provider will typically be required to invite three quotations from suitably qualified sub-consultants/contractors. Where the subcontracted services are likely to exceed R200 000.00 (including VAT) in value, the Service Provider shall follow an open tender process in respect of this work. A mark-up (extra over) in respect of all other costs, overhead charges and profit will be applicable in respect of all sub-contracted services not specifically itemised in the Activity Schedule.
16. Tenderers are to note that only those recoverable expenses listed in the Activity Schedule will be reimbursed to the Service Provider. No reimbursement of costs for subsistence, typing, printing/copying (other than reports and/or tender documents), communications or computer hardware and/or software will be made and these costs will be deemed to be included in rates, sums, percentage fees and prices for normal and additional services rendered.

17. Items for printing/copying shall be for specified contract documents, reports, manuals and drawings, excluding general correspondence, minor reports, progress reports, etc. which shall be deemed to be included in the professional fees. Payment will only be made for copies of reports and drawings submitted to the Employer or issued, as specified or requested by the Employer, and all drafts shall be for the Service Provider's account.

18. Construction Monitoring; Level 3;

- (1) Maintain a part-time presence on a site for half a day, 3 days a week.
Review random samples and review completed work prior to enclosure or on completion as appropriate.
- (2) Be available to provide the contractor with technical interpretation of the documents and specifications.

The tendered rate for construction monitoring staff shall include all overtime costs in respect of construction monitoring services provided outside of normal working hours.

19. Full time construction monitoring staff shall be reimbursed for travelling expenses, for either the return office to site or return home to site journeys, whichever is the lesser. Part time construction monitoring staff shall be reimbursed for either the return office to site or return alternate site to site journeys, whichever is the lesser. Construction monitoring staff engaged in work outside of normal working hours shall be reimbursed for the return home to site journey. Staff other than construction monitoring staff shall only be reimbursed for travelling expenses in respect of trips exceeding 150km per journey (round trip). Payment shall only be made for that portion of the distance that exceeds 150 km.

20. The per kilometer rate for the reimbursement of travel expenses shall be limited to the ad-hoc duty transportation allowance for the Employer's own staff as adjusted from time to time. This rate is will be confirmed monthly. (excluding VAT).

21. Tenderers are to note that the planning for this contract is based on a three-year budget which is subject to change. While the Employer has every intention to complete the full scope of works, the Employer reserves the right to reduce or increase the scope of works according to the dictates of the budget, or to terminate this contract, without adjustment to the agreed rates, sums or fees and without payment of any penalty or surcharge in this regard. The Service Provider shall however be entitled to pro-rata payment for all services carried out in terms of any adjustment to the Scope of Work or, in the case of termination, remuneration and/or reimbursement as described in Clause 8.4.4 of the Standard Professional Services contract as amended by the Contract Data.

22. All charges in respect of attendance at meetings (Clause 14, Part C3.1 Scope of Work) and the provision of secretarial services, shall be included in the tendered basic fee for normal services (Item No. 1.1 of the Activity Schedule).

23. Where fractions of a cent occur in calculations of prices and amounts, they shall be rounded up/down to the nearest whole cent.

24. Clause F.4.10(c) in Part T1.2 Tender Data shall be applicable to the submission of Activity Schedules which have been priced electronically, and which the Tenderer wishes to submit as a printed version with his/her tender in the place of handwritten priced Activity Schedules.

If there is found to be any variance between the printed version and the original issued document, the original shall stand. However, where Addenda have been issued which amend the Activity Schedule, then the printed Activity Schedule shall take these into account.

The pages of the issued Activity Schedule should not be removed from the tender document.

Tenderers must tender a basic fee as a percentage of the estimated contract values above. Where the project cost is less than R 2 000 000.00 the remuneration will be based on time and cost, as per Government Gazette No.39480 (4 December 2015) Guidelines for services and processes for estimating fees for persons registered in terms of the Engineering Profession Act.

Tenderers may tender for each respective item (No. 1 – No.3) and will only be considered and evaluated for the items tendered for. A roster system of three service providers will be established after adjudication.

- 1 In order to meet this requirement bidders are required to request their Tax Compliance Status which will include a unique PIN which you can provide to any third party (**if requested**) to enable them to verify your tax compliance status online via eFiling.
- 2 Request a TCC via eFiling which will give you the option to print the TCC Or request a TCC at a SARS branch where a SARS agent will be able to print or email the TCC to you.
- 3 The Tax Compliance Status Requirements are also applicable to foreign bidders / individuals who wish to submit bids.
- 4 A **Tax Compliance Status** is a holistic view of your tax compliance level across all your registered tax types.
- 5 If your tax compliance status is compliant, the SARS agent will be able to print or email you your TCC to the registered email address which SARS has on record for you.
- 6 **Please note:** If your tax compliance status reflects that you are non-compliant, you will not receive a TCC until you have rectified your compliance.
- 7 The **Tax Compliance status pin must** be submitted together with the bid. **Failure to submit** a Tax Compliance status pin **will result in the invalidation of the tender.**
- 8 In bids where Consortia / Joint Ventures / Sub-contractors are involved, each party must submit a separate **Tax Compliance Pin**.
- 9 **Please note that not all government institutions and private organisations will be able to utilise the Tax Compliance Status PIN at this stage and in such instances, you must supply a printed TCC. It is envisaged that the PIN will, in time, replace the paper TCC.**

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:**

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete
