Although the Cape Agulhas Municipality is fully compliant in respect of the monthly budget report to council, effective from March 2014, the quality of the report in terms of its completeness and usefulness for council decision making still needs improvement which will be addressed as an ongoing process.

4. SUMMARY FINANCIAL PERFORMANCE

Revenue performance

To date performance of the revenue budget records at 71% of adjustment budget information. The adjustment budget was tabled to Council at the end of January 2020 and numerous adjustments was processed to align actual performance to projections based on the mid-year reviewed information.

The main revenue categories of the budgeted revenues Property rated and Service charges perform above par and reflects 87 and 76% respectively. Administration will need to ensure that more expediate effort is inserted to ensure the budget for the "Sale of land" materialize given the cashflow impact this category will have on the municipal finances. Council also decided to allocate all proceeds with respect to the sale of land to bolstering the CRR and this will positively impact on overall liquidity and sustainability.

The impact of the implementation of the National lockdown with respect to the COVID 19 epidemic will significantly influence the municipal revenue performance. To date the collection rate for the month of April 2020 total 107%, but it is envisioned that this will come under significant pressure for the month of May going forward. The current projections is that these reduced collections will have a net reduction in cashflow of ±R5m for the financial year. This will influence the municipal overall revenue budget. It is envisioned that the municipality will tabled a revised budget as recommended by National Treasury during June 2020 to accommodate these under collection of revenues.

Expenditure performance

The performance for the expenditure budget for the period ending 30 April 2020 totals R241,3m of a budgeted total of R395,7m. This reflect an expenditure performance of 60.9 % of budgeted amounts.

The impact of the lockdown result in numerous under performance on the expenditures side of the budget. This will probably positively impact the overall performance given the reduction in revenue collection being projected. the municipality also budget for additional cost associated with COVID 19.

Capital performance

Capital expenditures totals 40.5% of budgeted revenues. The municipality performance relating to the capital budget is slow and below par. the risk exist that the municipality may not achieve it targeted capital expenditures

for the period. Commitments on the capital budget totals R5,3m that should enhance the capital performance for the year to date. The risk is still prevalent that capital performance will be below the actuals of the previous financial years.

Administration will need to institute measures to improve the capital performance for the remaining period ending 30 June 2020.

Cashflow performance

The municipal position related to the cash performance is positive for the period ending 30 April 2020 and the overall CCR positive reports at R35m for the period ending.

The risk of cash resource depletion remains high for all municipalities and the management of resources should be done in conjunction with cash management prudence to ensure optimal use of funds.

To date the municipality reports stable cash position of more than the recommended norm for cash resources as per the National Treasury's norms for current and liquidity ratios.

National state of disaster (lockdown) / Covid 19

The impact on the National lockdown and the Covid 19 will significantly impact the performance of the municipality operational as well as capital spending and performance for the financial year. Numerous concerns exist in terms of the municipal debt collection, ability of consumers to pay for services as well as the social impact on the Covid 19 crises on the communities. The ability to spend the capital budget will be negatively impacting on the municipal overall performance. Although this is a National disaster, each municipality will need to assess the impact on their own municipal areas.

The municipality is in the process of conducting a Risk assessment relating to analyze the impact of Covid 19 on municipal operations and the overall effect this will have on the municipal functioning.

More details relating to the above will be included in the May reporting process.
